Dear Name:

Thank you for working with General Conference Auditing Service to improve our service and efficiency for the December 31, 2012 audit. As outlined in the audit engagement letter dated April 23, 2012, you now have access to the Audit Preparation List via your GCAS Portal.

These instructions will assist you in preparing for the audit. They include a number of easy steps, arranged by topic, to assemble the information needed for the audit. Each step is simply stated in checklist form. If you need an example of last year's information for any section, please let us know.

Please prepare an electronic copy of each requested document. If these documents are prepared in Word or Excel, it will help to make our testing process more efficient. If a document is not available in Word or Excel, please convert or scan it to PDF.

When all the information has been assembled, the entire collection of electronic documents is to be sent to GCAS, using either your GCAS Portal or another secure delivery service. We wish to complete our audit procedures in a timely manner, so we ask that you send the requested information to our office by June 25, 2012.

We believe that you will find this system very helpful! It is designed to minimize disruptions to your workplace during the audit and to minimize the travel-related expenses of the audit. We appreciate your input on how we can continue to improve and to serve you better.

Sincerely,

General Conference Auditing Service

# Administration (AD)
