

Project name/ interest center:	EQUIPMENT OF SONGA HOPITAL	Beginning Date:	1/1/2022
Team Leader:	Dr SANGWA MUSEMA PATRICK HEALTH DIRECTOR ECUM	Ending Date:	12/30/2026

PROBLEM /NEED what are we trying to accomplish?

Songa Hospital is a structure located in a rural area 47 miles from Kamina and whose population in its health zone is 228,518 inhabitants. So to meet the health needs of its population, the Songa hospital needs: ultrasound and x-ray machines, equipment and materials for the operating room and hospitalization, equipment and rehabilitation of the maternity ward

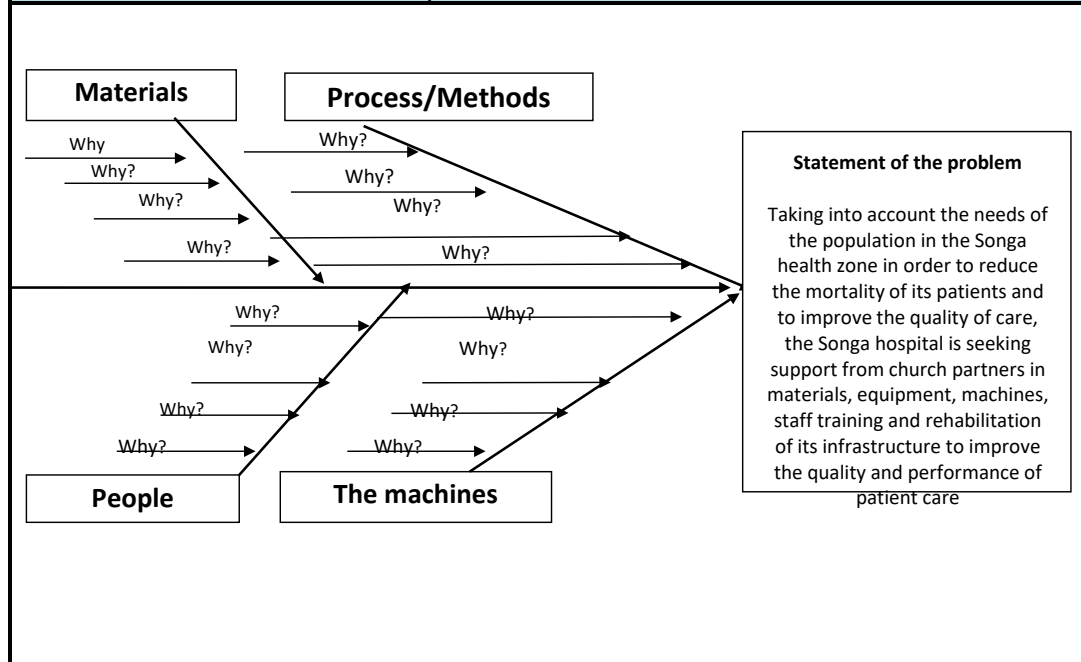

Objective How will we know if a change brings an improvement?

Good patient care with improved patient care during surgery and improved health of the mother and her children

REFLEXION. What changes can we bring that will lead to an improvement?

Providing the Songa general hospital with an x-ray machine will help to ensure good management of cases of fractures, pneumonia, covid, etc., which will reduce disability and mortality.
Having an anesthesia table will reduce the peroperative and post-operative mortality rates in the community,
The rehabilitation of the maternity ward and especially its equipment (beds, mattresses, sheets, incubator), will decrease the rate of home births, the rate of neonatal and maternal mortality

PRIMARY CAUSES Review of the current process. Isolate the root causes

PLAN

- PROJECT DEVELOPMENT
- DEVELOPMENT OF THE PLAN
- FEASIBILITY STUDY
- IMPLANTATION
- CENTER DEVELOPMENT
- ACQUISITION OF MATERIALS
- FOLLOW-UP AND EVALUATION OF THE RESULTS

Study		
Target	Results	Evaluation
Infrastructure equipment	rehabilitation Patient care quality	Patient capacity Performance

Act

Future action	Who	When
Rehabilitation equipment	Songa hospital and Partners	2022
	Partners	2022-2026

DO

Action	Who	When
rehabilitation	Songa Hopital and Partner	2022
equipment	Partner	2022- 2026
